

We are excited to welcome the newest members of our 2020 Honor Roll Professionals Program... [Range Real Estate](#)! Their generous donation will help to support STEAM curriculum and programs for students throughout MDUSD.

Range Real Estate CEO Mark Pages-Oliver shared why he chose to partner with the Foundation:

"My dad was a teacher for 44 years and I saw first hand how dedicated the teaching fraternity is, caring for our kids and often using their own resources to ensure their students don't go without. In our area, we have amazing schools filled with talented educators but accessing the right funding levels to meet the needs of our kids is a challenge.

As professional realtors we are helping people to move in, around and out of our communities and the school systems are a huge draw to our area. Traditionally realtors can pay tens of thousands of dollars to third party marketers to help find new clients. We think this money could be put to a much better use.

We're excited to be a part of the solution and are pledging 10% of our commissions to the Mount Diablo Education Foundation to help them with their mission to 'promote excellence in the educational experience of students.' This pledge is uncapped, meaning the more clients we help in this school district, the more funding our schools will receive. Our ambition is to donate over \$100,000 in the next 12 months.

Given the unprecedented times we find ourselves in, we also think it's important to help our clients even more right now so we're going to extend the same 10% discount on real estate commissions to our clients.

This isn't a limited time offer. We have found a way to redirect money to where it should have always been invested.

Whether you're buying or selling, 20% of our commission will be going to exactly the right causes and together we will ensure that our greatest natural resource, being our children, will be better off."

Thank you to Mark and the Range Real Estate team for giving to MDUSD schools and helping our district community
