Annual Giving Campaign
GIVE 10

MDUSD
EDUCATION
FOUNDATION

**Future
scientist at
work**

**Mystery
Science K-5**

GIVE 10 

The foundation was thrilled to be able to fund contracts for science curriculum programs for ALL district students this year. The Mystery Science program was rolled out to elementary school classrooms at the beginning of the school year. In January, Mosa Mack programs were provided to middle school students, while Gizmos was offered to high school science classrooms. That adds up to over 30,000 students with access to science enrichment. Your donation to our annual giving campaign will continue to help support these programs. Please give now.

DONATE

Our future scientists thank you!
